# PROTECT OUR LOCAL LIBRARY

PROTECT LIBRARY SERVICES

**Vote YES on B to repair our aging libraries, increase our book and ebook collections and most importantly, prevent branches from closing and operating hours from being cut.**

Our Marin County libraries are an extremely valuable community resource. Library usage continues to increase and Measure B will maintain and enhance library programs in all branches, for all Marin County residents.

## **Vote Yes on B:**

- Keep library branches from being closed
- Repair leaking roofs, siding, and replace deteriorating foundations and HVAC systems
- Increase book and ebook collections
- Maintain library services for seniors, residents with disabilities and families
- Maintain library hours and 24/7 online library access

Many of our library facilities are over 50 years old and their electrical and technology systems need to be updated. Renewing Measure B will provide necessary funding to make essential repairs and upgrades to local libraries as well as maintain library programs for youth, seniors and residents with disabilities. Measure B supports computer and internet access for residents who do not have access at home, school, or work.

**Without Measure B, there will be cuts in library hours, collections, staff and services.**

Low-income and at-risk residents in Marin County rely on our public libraries for vital educational and career resources.

All Measure B funds will remain under local control to support Marin County libraries and nothing can be cut by the State or redirected for other purposes.

## **Fiscal Accountability is Required:**

- All funds must be used for Marin County library services
- Independent citizens' oversight and annual audits ensure funds are spent as promised
- Businesses in Marin County would be paying their fair share and it will not fall solely on homeowners to foot the bill

**Join your five Marin County Supervisors, community leaders and Marin residents in voting YES on B to renew essential funding and protect our local libraries.**
